Liftoff! is the debut release of pianist Austin Byrd. Supported by up-and-coming Los Angeles musicians Brian Ward (bass) and Abe Lagrimas, Jr. (drums), *Liftoff!* features seven original compositions by Byrd that explore topics spanning unrequited love, to the strange and fantastical things that happen between waking and sleeping, and many more.

Ranging from the hard-swinging straight ahead “Bernstein’s Dilemma” to the mysterious elements of “The Drift” and the tender, haunting quality of “Someone Somewhere,” there is something in this release that is sure to please any fan of jazz and great music.
