Uncommon Sense is the debut album of pianist and composer Axel Schwintzer's project **Axel's Axiom**. *Uncommon Sense* features ten compositions by the German born-New York based Schwintzer that stylistically range from Samba influenced grooves to Funk and Pop oriented tunes to swinging jazzy themes and ballads. The styles cross over into one another, creating a varied blend that stays interesting without becoming incoherent and jumbled. As per the composer's credo, the music has the potential to appeal to inexperienced and casual listeners and music aficionados alike.

The band consists of the versatile and cooking rhythm section of drummer Marko Djordjevic (Wayne Krantz, Bill Frisell, Lionel Loueke, Aaron Goldberg) and bassist Evan Gregor, (Dave Liebman, Phil Woods, Christian Scott). The rhythm section is complemented by Casper Gyldensøe on guitar, and Axel Schwintzer on piano and some keyboard and synthesizer. Saxophonists Aki Nishiguchi on tenor and Alex Terrier on alto deliver numerous burning solos. Every single band member hails from a different corner of the world – Serbia, USA, Japan, France, Denmark, and Germany are all represented, perfectly reflecting the diversity of the music.
