*Journeys Ahead* is the debut album from trumpeter and composer Ally Hany. *Journeys Ahead* contains six originals by Hany that pay homage to the forefathers of jazz while also diving into the realm of modern R&B, funk, and Afro-Cuban music.

Hany's early influence from trumpeter Lee Morgan can be easily heard, along with more modern influences of Sean Jones and Roy Hargrove, yet all with her own musical twist.

The beautiful melodies Hany composes, along with the creative and energetic improvisations and interactions make *Journeys Ahead* an enjoyable journey for all.
